

Istanbul Congress Center Corona Virus (COVID-19) Measures

Dear Guests,

- »» As Istanbul Congress Center – ICC, we take into consideration all the statements made by World Health Organization (WHO) as well as Turkish Ministry of Health.
- »» We regularly disinfect all public areas to be used by our guests and staff.
- »» Capacity graphics of all our halls shall be revised in line with the physical distancing standards.
- »» 100% fresh air is circulated through our ventilation systems and they are regularly maintained.
- »» Use of elevators is restricted and elevators are allocated for the use of people with disabilities only. Circulation within the building is through the escalators.
- »» All staff members regularly go through health screening.
- »» Masks are checked at the entrance to the building.
- »» There will be thermal screening system at the entrances.
- »» Anti-bacterial cleaning agents are used to clean the whole facility in line with the standards.
- »» Hand-disinfectants are installed at easily accessed points
- »» Medical waste disposal areas are allocated for the disposal of sanitary materials
- »» All staff members are provided COVID-19 awareness training.
- »» Printed information visuals are placed in public areas.
- »» Our 1500²m kitchen offers hygienic services with its appropriate design in accordance with physical distancing standards as well as staff equipped with masks, gloves, bonnets and shoe covers.
